# Testimonials

Chantelle's understanding and knowledge of the online social landscape and they way she took time to understand my business has made working with her a dream.

She was excellent at drilling down our core needs, providing clear plans our whole team could follow and then executed that plan on time. Her approach and feedback has been detailed. She has ensured that we were understanding the leads coming in, how to nurture them and get the most out of our marketing strategy she put in place.

Not only that she has provided feedback on our infrastructure and ideas for the future in the wrap up information. Such an amazing extra on top of a great service.

**- DR JACEY PRYJMA**

Chantelle's marketing knowledge and skill was clearly evident. Despite my narrow timeline Chantelle produced the content and set up my FB Ads in no time. She continued to monitor and adapt my campaigns, communicating with me and advising me regularly on options that achieved an excellent outcome.

I'd highly recommend Get Social Marketing for any business, especially start-ups. Chantelle is fast, reliable and her work is effective!

**- AMANDA WATSON**

I had no understanding of how to get my business from launch to converting sales and even content ideas without creating more noise in the social world. I knew I had something good I just couldn't work out how to market it.

Chantelle completely blew my mind with her knowledge and attention to detail. She did a deep dive into competitors, things I can change within my whole online presence, how I can create a sales funnel and SO much more. I would recommend her to anyone and everyone starting a new business or anyone stuck in an overwhelming marketing rut. Chantelle is worth every cent and more!
